

Manage Your Finances & Inventory all in one place with

Perfect for Growing Businesses

Detailed Inventory Reports

Capture Complete Product Details

Keep your inventory organized with important details such as SKUs, product images, vendor info, costs, and available stock.

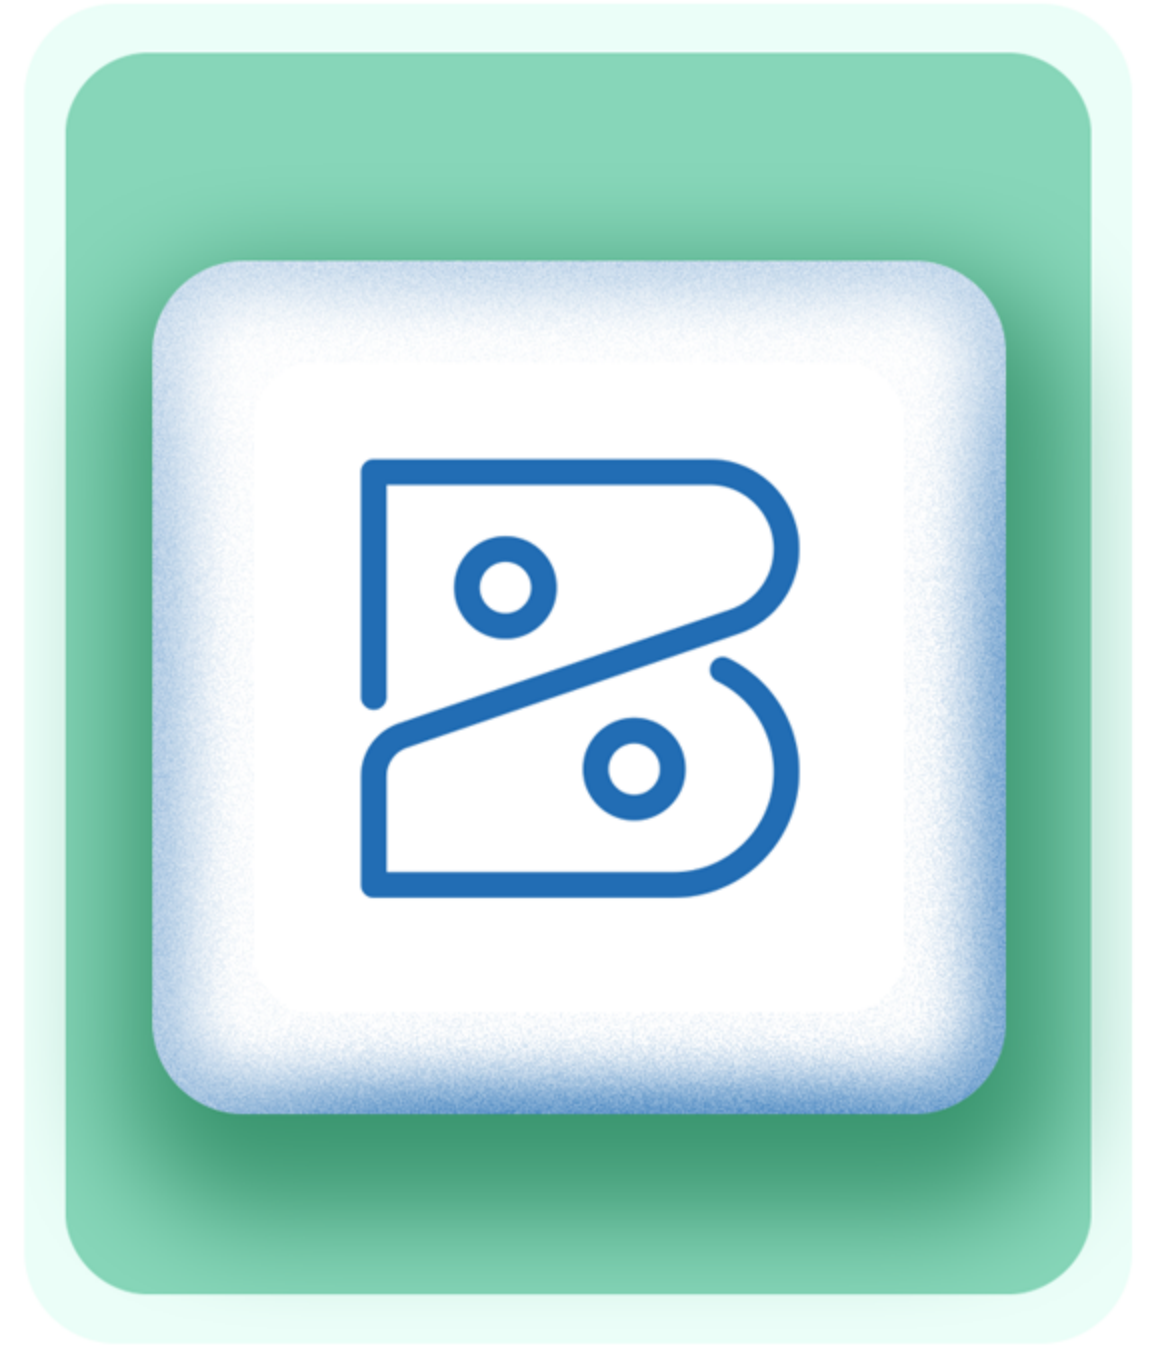

Do Business with Customized Rates

Make a personalized price list with markups or markdowns and share it with your chosen vendors and customers.

Never Run Out of Stock

Track your items from creation to keep tabs on stock levels at all times.

Know When to Replenish Stock

Set reorder levels and receive alerts before stock levels fall too low. Choose preferred vendors for specific items to send purchase orders instantly.

Record Inventory Changes in Real Time

Easily adjust your inventory for damaged or lost stock in real-time. Keep shelf counts simple by maintaining accurate inventory levels.

Stay Informed with Detailed Inventory Reports

Check your current stock levels and valuation anytime. The software values your inventory using the FIFO methodology.
