# **PHONES SAFE AND SECURE WITH PHONE LOCKERS FOR SCHOOLS**

---

OzLoka® New Zealand phone lockers are compact, secure lockers designed to meet the unique needs of modern schools.

As mobile phones become an integral part of daily life, schools are faced with the challenge of balancing security, accessibility, and student focus. Our range of phone lockers for schools provides a practical solution for keeping devices safe and out of sight during school hours, ensuring students stay engaged in their studies. OzLoka® New Zealand phone lockers are compact, secure lockers designed to meet the unique needs of modern schools.

## **A Smart Solution for Mobile Storage**

Mobile phone lockers are essential in environments where students are required to store their phones during lessons. Our phone lockers are highly favoured by schools for their ease of installation and maintenance. They provide a clean, organised space for each student to securely store their devices.

- **Compact and Functional:** Designed to fit into tight spaces, these lockers maximise available room in school corridors or classrooms.
- **Durable and Secure:** Made from strong, UV-resistant materials that can withstand wear and tear, each locker offers a secure place for devices, complete with a lockable loop for added security.
- **Space-efficient Design:** Modular design allows you to customise the arrangement to fit the school's specific layout.

## **Why Do Our Lockers Work for Schools?**

Our range of phone lockers for schools is built to last and is perfect for high-traffic areas. Their durable, corrosion-resistant construction ensures they remain in top condition for years, even in demanding environments. With the ability to configure the lockers to fit the available space, they make it easy to offer every student a secure and dedicated storage solution for their phones. Create a distraction-free learning environment with us. Contact us today to find the perfect phone lockers for your school.
